

Enfor Waste Survey Software

Enfor Waste survey software is user-friendly logging waste and residue survey software. For your handheld and PC, Interior and Coastal BC. Ocular and full plot surveys. Used throughout by industry for surveys and the Ministry of Forests for Waste Survey checking.

Intuitive and easy field data entry screens. Estimate waste volumes and waste billings on the fly. Summary reports. Easily upload your survey to the Ministry of Forests.

Key features:

- User-friendly field data entry and office data entry
- Designed for your Windows based handheld or PC
- Electronic submissions - XML for MOF Waste System
- Complete waste and residue calculations (volume and value)
- Summary reports (FS 702, FS 444, Piece Reports, etc)
- Error checking on the fly
- Customize screens to suit your needs
- Import and convert old 1R files
- Private land module available
- Survey Check module available
- Maintenance and user support

If you're looking for a field data collector, the handheld version is for you. It operates on your Windows based handheld (e.g. Recon). If you're looking for an office application, the PC version is for you - use it to manage or edit field data from your handheld or to key in data manually. Or get both and use them in tandem for maximum flexibility! Both provide full functionality and data is interchangeable.

Clients report that Enfor Waste software saves them time and reduce costly errors. Electronic submissions are made easy and save time consuming data entry!
